ASNA Acceler8DB[®] for the Web

Production Server License (Up to 2 Processors) **€8.646**

An Acceler8DB for the Web Server License enables unlimited access to a database server in a three-tier environment from components running in the middle tier on a Windows Server. Examples of this are components hosted by MTS (Microsoft Transaction Server) and ASPs (Active Server Pages). A license of Acceler8DB for the Web must be purchased for each processor on each server running the middle tier.

Production Server Additional Processor License **€4.323**

Technical Support and Upgrade Program **20% of current product price**
Provides 12 months technical support and decimal point upgrades

Development PC License **€1.150**

For use on same PC as ASNA Visual RPG. Maintenance/Support charge is included with AVR Support

ASNA[®] Deployment Pricing € Euro

ASNA Acceler8DB[®] and DataGate[®]

Acceler8DB[®] - An Acceler8DB license enables a user to access the Acceler8DB[®] database from a program that is directly connected to the database server using TCP/IP, or on a stand-alone PC. A license must be purchased for each user concurrently accessing the database.

DataGate[®]/400 - DataGate/400 is middle-ware that provides fast, record-level access to the AS/400 DBMS.

DataGate[®]/SQL - DataGate/SQL Server is middle-ware that provides fast, record-level access to Microsoft SQL Server DBMS.
